ASSE-MEC
President's Message

The American Society of Safety Engineers-Middle East Chapter (ASSE-MEC) is organizing its 10th Professional Development Conference and Exhibition in the Kingdom of Bahrain, with the theme "Your Safety is our Business, Your Future is our Mission" This event, scheduled on February 18-22, 2012, is to be the most comprehensive forum on issues within the safety, health and environment (SH&E) segment of the region's industries including oil, gas and petrochemicals. Delegates, each a stakeholder in the fields of SH&E, representing a diverse group of managers, engineers, and scientists, are expected to participate in this conference and exhibition. The Organizing Committee encourages you as an SH&E professional to participate in this premier event as a speaker.

Leading companies and consultants in oil, gas, petrochemical and other industries have expressed

their support for this event. This support is initiated by the fact that these organizations believe it is imperative that safety, health and the environment become and remain major issues of importance in the region.

Your participation as a speaker is an outstanding opportunity to share your knowledge and network with your peers. It will also provide you with opportunity to contribute to the success of the event and demonstrate your commitment to SH&E. A number of carefully selected workshops will be offered during the conference, as well.

The Organizing Committee members and the Conference delegates look forward to your participation.

For more information, please visit www.asse-mec.org.

INTRODUCTION & BACKGROUND

The American Society of Safety Engineer (ASSE) is an independent and non-profit professional organization. It consists of over 32,000 professional members. The ASSE mission is to foster the technical, scientific, managerial and ethical knowledge, skills and competency of SH&E professionals for the protection of people, property, and the environment.

The Middle East Chapter (ASSE-MEC) was established in 1982 and has held several conferences and technical meetings in the Gulf region. These conferences and meetings have attracted many international speakers, a variety of exhibitors and large number of attendees. The broad range of subjects addressed, the sharing and dissemination of knowledge, and the resulting discussions made these conferences a recognized success. These successes have encouraged ASSE-MEC to organize this conference, on February 18-22, 2012, in the Kingdom of Bahrain, with the theme "Your Safety is our Business Your Future is our Mission".

CONFERENCE OBJECTIVES

The 10th ASSE-MEC Professional Development Conference & Exhibition aims to achieve the following objectives:

1. Provide attendees with cutting edge informative technical papers and provide an opportunity to meet other professionals in your practice area.
2. Develop and present a vision for and insight into the future safety, health, and the environment.
3. Share your innovative ideas and practices with fellow members of various industries.
4. Show and demonstrate the latest industry SH&E products, services and activities in the region.

CONFERENCE TOPICS

Conference sessions may include, but are not limited to, topics in the following categories:

● SH&E management	● Inherently safer and life cycle approach
● Human factors	● Behavioral safety
● Contractor SH&E	● Transportation safety
● Incident investigation	● Waste management
● Emission/pollution control	● Emergency response planning
● Fire protection	● Occupational health
● SH&E risk assessment	● In-plant building locations
● SH&E performance measurements and audits	● Quality of SH&E
● Mechanical integrity management	● Pipelines safety and risk management
● Security risk assessment	● Managing and integrating security with SH&E
● SH&E training schemes and education	● Tools and techniques for SH&E professionals

CONFERENCE LANGUAGE

The conference will be conducted in English. Some Arabic papers may be considered.

CALL FOR PAPERS

Authors wishing to present a paper at the conference can submit their written abstract and required author's information to:

Robert L. Smith, CSP, CFEI
ASSE-MEC 10th PDC&E Program Chairman
Phone : +966-3-872-9655
Fax : +966-3-872-9751
Email : program.asse.mec@gmail.com

ABSTRACT

The abstract should not be longer than 300 words summarizing the paper and presentation highlighting its importance to the conference, and to which category of topics the paper belongs.

AUTHOR INFORMATION

On a separate sheet of paper, authors are requested to provide the following information:

- Author's full name
- Author's passport-size photo (if sent electronically, photo must be of 250-300 dpi)
- Employer and job title
- A summary of author's academic qualification and work experience (50-80 words)
- Title of paper
- A summary of abstract (less than 80 words) to appear in the conference program brochure
- Author's postal address
- Author's contact (office phone, mobile phone, fax and e-mail address)

EXHIBITION & SPONSORSHIP

Exhibition:

Concurrently, with the conference and at the same venue, an exhibition on security, fire, safety, health and environment will be organized. The 10th Professional Development Conference and Exhibition offers a rare opportunity to meet with a dedicated audience in a professional atmosphere to develop networking with other SH&E professionals. It will provide an excellent opportunity for manufacturers, vendors, consultants, research and training organizations to display their products, services and activities.

Sponsorship:

Both the conference and exhibition provide a highly dynamic opportunity for business generation and market penetration. Sponsors will enjoy a wide range of opportunities for direct and sustained access to Middle East customers. In this conference, a huge emphasis is placed on the caliber of conference agenda and programs. This will certainly play an important role in ensuring that the people you will meet at the event are the people who count for your business.

For more details on exhibition and sponsorship opportunities, please visit: www.assemec.org. The information is also available in the conference "Sponsorship & Exhibition Guide." If you are interested in exhibiting or sponsoring the conference, please contact the conference Marketing Committee.
